

PRESS RELEASE

MAY 2006

To Customer/Supplier

We would like to make you aware of the developments at Holifields Precision Engineering.

Our targets of meeting World Class deliveries have been well met, as we currently stand at 99.4% on-time deliveries. A record we are proud of.

We have further harmonised the management team between Holifields and Hutton Precision Engineering, our sister company in Bicester. There are no direct changes for Holifields but we are pleased to announce the addition of our Group Sales Manager, Mike Leonard. Mike has been a manager at Hutton's for several years, in which time he has accumulated excellent sales skills and now assumes the role on behalf of the group.

In our Sales department we have also recently added a new person, whom I am sure you already know, Sebastien Lagadec. Sebastien has worked in France and the UK and is well versed in engineering and commerce and joins us at Holifields after studying for his Masters in Engineering.

We have recently restructured our Customer Services department as we endeavour to obtain important information from you as to how we can better service your needs. Our customer services staff will be calling you in the near future, so please assist them by giving as much detail as possible.

As you will already be aware, Holifields is a part of the KAS Technologies Group along with Hutton Precision Engineering. These changes have been implemented to benefit you, our valued customer, as we endeavour to provide a better all round service.

We look forward to your continued support and if you have any queries or concerns regarding our changes please do not hesitate to contact our Sales and Customer Service team. Please see the attached list for our complete contact details.

Kind Regards

Karim Sekkat
Executive Chairman

HC HOLIFIELD (OXFORD) LIMITED
